

MEDICAL PACKAGING SERVICES

If you are equipping a veterinary practice, our function is quite simple: To Make YOUR LIFE EASIER. We save you money, we save you time AND we save you from needing to pull your hair out by the time your practice is completely equipped. We immediately save you the weeks and months sometimes spent shopping, comparing and gathering equipment information and pricing. You get the "best deal" you can make, *right from the very start* with one of our great money saving packages of equipment. You get Great Savings, whether you prefer a totally personalized "*Custom Equipment Package*" (where you choose every item in it) or one of our advertised pre-constructed packages - or a *combination of both*.

When you need to COMPLETELY equip a veterinary practice, no one else has more experience, nor offers the full range of equipment we do. We have now helped over 1,000 veterinarians FULLY equip their practice. We work "hand in hand" with you until your practice is completely equipped.

*SERVICE Is More Than A Word In Our Name, It's What We Actually Provide. Our noted "people orientated service" starts when you call us. You are guaranteed to speak with a real person, NOT impersonal computer menus and voice-mail. YOU are important to us and we intend to treat you like it. When you call us, regardless of whom you speak with, you will actually be speaking with a person who has fully equipped over two hundred veterinary practices. If you have questions or need information, their advice can prove invaluable and offer you "Peace Of Mind" by knowing you are going to be "Equipping Your Practice The Right Way" *the First Time*.*

If your building plans involve an architect, contractor or sub-contractors, we will help keep you from spending weeks chasing specifications and gathering information for them - Since we furnish all needed plumbing, wiring and installation specifications and cut-sheets needed to install ALL of the equipment we furnish. Our services don't cost you a single dollar, but they will truly make your life easier.

We are a Factory Direct Distributor for many manufacturers including; ShorLine, InnoVet, Min-X Ray, Heska, Snyder, SurgiVet, Mason, Burton, TriStar, Engler, Valu-Line, Cardell, AFP Imaging, Vetroson, Gaymar, Tuttnaurer, Jorgensen Labs, Vulcon Technologies, AccuScope, Welch-Allyn, Dental-Aire, Technidyne, Clinton Industries, Pulse Medical and Radiation Concepts just to name some. These manufacturer's provide True Practice Quality Products and we provide all of the fine equipment they manufacture - At Great Packaged Buys.

***EQUIPPING YOUR PRACTICE HAS NEVER BEEN
MORE QUALITY ASSURED,
MORE CONVENIENT,
FASTER,
OR MORE ECONOMICAL!***
